NEED BRIDGE OVER L. A. RIVER NEAR PARK, DECLARED

Proposed Improvement Discussed at San Fernando Road Association Meet

Matters of general interest were discussed last night at 806 South San Fernando Road by the San Fernando Road Improvement association.

About forty persons were present, including a number of those who have recently joined the association. The percentage of women was large. At the close of the meeting a social hour was enjoyed and doughnuts and coffee were served.

The relationship between the San Fernando Road Improvement association and the Chamber of Commerce was explained in glowing terms by F. F. Sanders, assistant secretary of the Chamber of Commerce. He urged the close co-operation between the two organizations for their mutual benefit. Mr. Sanders spoke of the work being done by the Chamber of Commerce looking towards the development of Glendale and stated that it was looking not only to this year but for many years ahead.

Says Bridge Is Needed

The need of a bridge across the Los Angeles river north of Los Feliz Road at Park avenue or a nearby street was brought up again by L. H. Wilson of 1024 South San Fernando Road. He called attention to the fact that there is no bridge between Los Feliz Road and Burbank, a distance of several miles. He dwelt at some length upon the advantages which would accrue to Glendale by means of easy accessibility to Griffith park, which, he declared, was right at our doorsteps and a great deal closer to us than to either Hollywood or Los Angeles.

Mrs. May P. Moberly of 1011 South San Fernando Road declared that a city of this size with Glendale's growth should be making plans to acquire land for three or four parks in various sections of the city. She endorsed the suggestion of a bridge to link Glendale with Griffith park.

As a permanent committee to work towards the securing of such a bridge, William Griffin, president of the association, appointed Mrs. Moberly, H. V. Johnson of 1024 South San Fer-

At noon a delicious luncheon was served by the hostesses, and was followed by an interesting program, including a three minute talk by Mrs. E. W. W. LIGHTWEIGHT SQUAD AWARDED CENTRAL LEAGUE HONORS

Covina Forfeits Contest for Basketball Championship; Locals After Flag

The lightweight basketball team of the local high school was yesterday afternoon declared the champion of the Central league, due to the forfeiting of the scheduled championship contest between Glendale and Covina. As a result, Coach Hayhurst will lead his charges into the annual playoff games to decide the winner of the Southern California title.

Although no definite announcement has yet been made it is generally considered that Long Beach high school's entry, which took the city league banner, will be Glendale's first opponent.

Coach Butterfield's Glendale high school baseball team started the 1922 season off in an exceedingly satisfactory manner yesterday afternoon when the Red and Black diamond pastimers smothered the Burbank Hayseeds by the almost unheard-of score of 10 to 1. The game, which was little more than batting practice for the locals, was played on the Burbank field and was attended by a number of students from both schools.

It's Easy for Locals

After the first inning, in which Glendale scored four runs, the contest resolved itself into a relay race for the locals, who were able to run the bases at random. Marshall "Sparkplug" Wilson, veteran second sacker from last year's nine, led Glendale's batting rampage with three clean hits, one of which was a home run.

Butterfield's battery consisted of Ringstad and Morgan, catchers; and Wood, Aageson and Bradbury, pitchers. The other positions on the team were changed several times during the game.

The local high school's 110-pound basketball team successfully terminated its season yesterday by trouncing the intermediate school squad of basketers to the tune of 38 to 9. The contest was a walk-away from the start, the "Paperweights" having things their own way at all times.

Here Is Lineup

The lineups of the two teams were as follows:

Intermediate—Lovell and Copeland, forwards; Barlet, center; Carver and Lavelle, guards.

Paperweights—Richardson, Highfill, Lane and Swaney, forwards; Jensen and Neel, center; McAllister, McGillis, Heideman and Muff, guards.

At the meeting yesterday afternoon of the General Richard Gridley chapter, Daughters of the American Revolution, which was held at the home of Mrs. J. A. Crawford, 201 South Central avenue, announcement was made of the state conference to be held next week in Los Angeles, beginning Wednesday night, and continuing the remainder of the week, headquarters for which will be at the Alexandria. The remainder of yesterday's meeting was given over to ritualistic work of the order, following which delicious refreshments were served.

Those present included Mrs. T. H. Addison, Miss Sophie Goff, Mrs. Gertrude Follansbee, Mrs. C. W. Houston, Mrs. T. W. Preston, Mrs. W. N. Rathbun, Mrs. L. M. Peirce, Miss Ida Myers, Mrs. Albert D. Pearce, Mrs. J. R. Mitchell, Mrs. H. A. Strong, Mrs. W. G. Lyman, Mrs. J. H. Franklin, Mrs. Mary Drake, Mrs. Herbert H. Mann, Mrs. William Brown, Mrs. Mabel Franklin Ocker, Mrs. Frank W. Parr, Mrs. E. M. Kennedy, Mrs. C. B. Moe, Mrs. W. L. Jencks and the hostess, Mrs. Crawford.

Miss Pankhurst Will Speak Here March 10

The announcement that Christabel Pankhurst will speak at the first entertainment to be given by the Business and Professional Women's club in the Chamber of Commerce auditorium on March 10 has been most heartily received and is being looked forward to with interest. Her topic for that night will be "Ideals of Women, False and True."

Miss Pankhurst, together with her mother, Mrs. Emmeline Pankhurst, founded the famous Women's Social and Political union and has had a career of exceptional interest. Miss Pankhurst initiated the masterful policy which, by its political seriousness and its dramatic quality, brought the woman suffrage question to the forefront of politics and made the world ring with the doings of the suffragettes.

STARTS UPON BUNGALOW

Contractor J. M. Banker of 228 North Glendale avenue has started construction upon a $4500 modern, five-room bungalow at 120 South Belmont street for C. A. Stuart who now lives on the rear of the same lot. A patio in the rear and a large front porch with a sun parlor at one end are to be the features. The home will be ready for occupation in about sixty days.

AUTO LINE PERMIT DECISION TO BE MADE MONDAY

Final Arguments Are Made by Glendale's Representatives Before Utilities Board

Decision upon Glendale's petition for a permit to operate a bus line was deferred until Monday at yesterday afternoon's hearing of the Board of Public Utilities of the City of Los Angeles.

The hearing was attended by a large number of Glendale residents including a delegation from the Chamber of Commerce.

Mayor Spencer Robinson opened the discussion by explaining the public attitude toward the bus line. C. D. Gulick, traffic expert, explained in detail the project.

Frank Karr and other officials of the Pacific Electric opposed the granting of the permit. He denounced Glendale realtors as "exploiters." City Manager W. H. Reeves retorted that the city did not regard the bus line merely as competition for the Pacific Electric, but as a means of giving the city better transportation.

Says City Has Rights

He said the municipality has a perfect right to establish such a service if it desires. According to Mr. Reeves, if the Pacific Electric can stand the competition of such a bus line, it is bound to fail sooner or later.

John T. Kennedy, of the public utilities board inquired what would happen if Glendale should not be able to meet the financial obligations incurred in the establishment of such a bus line and remarked that such a condition would be a slur upon the communities of southern California.

Wrathfully, Councilman Sam Davis replied that the very fact that Glendale citizens would have to vote upon the proposition would show their ability to finance it.

Favors Granting Permit

Walter R. Leeds of the public utilities board stated that, as far as he was concerned, Glendale might have the permit.

The fact was brought out by Mr. Kennedy that the bus would traverse a greater distance in Los Angeles than in Glendale.

A. T. King, chairman of the board, made no comment during the hearing.

City Attorney Bert P. Woodard asserted that the granting of the permit would be a necessity.

Dr. Jessie Russell and Realtor C. B. Guthrie spoke, also.

PROPOSED HOSPITAL CAUSES PROTEST TO OFFICIALS

City Council to Visit Site and Reach Decision, If Possible, By Monday Night

Proposed establishment of a hospital and sanitarium at 1457 Sycamore Canyon Road caused a protest to be made at the meeting of the city council last night, the protestants being led by George B. Woodbury.

Dr. F. C. Bishop, 1545 East Wilson, proposed to establish the hospital and sanitarium and, according to his application for a permit, he plans to spend $50,000 on the first unit and eventually the total of $250,000.

Attorney Albert D. Pearce represented Dr. Bishop at the hearing, which was adjourned without any action being taken beyond the declaration that the councilmen will visit the site of the proposed institution and endeavor to reach a conclusion by next Monday night's meeting.

Mr. Woodbury, in opposing the granting of the permit, declared the zone law governed the establishment of the hospital and sanitarium and the council, he held, could not legally grant permission.

Attorney Pearce stated during his argument for Dr. Bishop that it was not proposed to conduct the same class of an institution as is now being directed by Dr. Bishop under the name of Canyon Rest Home.

Ordinance To Be Changed

During a discussion of the set-back ordinance at the council meeting last night, Councilman Dwight W. Stephenson suggested that hereafter all set-backs be established for a full block, rather than for one lot. This was agreed to and then Councilman S. A. Davis proposed the ordinance be amended so that the council has the power to grant a change from the provisions of the ordinance. The council agreed to the amendment, provided the city attorney rules it is legal.

That Swimming Pool

Councilman C. E. Kimlin inquired concerning the proposed swimming pool and the matter was referred to Councilman A. H. Lapham for answer.

"The plans for the swimming pool have been completed and there is every indication we will call for bids by next Thursday night," announced the "father" of the pool.

Bringing Track to Grade

The councilman also asked whether about the proceedings to bring the

Eagle Rock, You Are Invited to Enter Glendale!

ANNEXATION of Eagle Rock, when the people of that city feel kindly toward Glendale, should be fostered by the Chamber of Commerce, according to a recommendation moved by Mrs. M. L. Tight, at the forum meeting last night. The invitation to Eagle Rock to cast its lot with Glendale, rather than Los Angeles was unanimous.

It is said that water provides a big question for the community lying to the east. Being a part of the Union high school district already, linked by a local car line and without a noticeable dividing line, the two cities could be amalgamated easily, it is believed.

A special train will be run from Los Angeles and reservations are now being made.

H. W. Arbury of Community Service, Inc., was present and invited the Rotarians to attend a meeting at the Chamber of Commerce Tuesday night at which time that movement will be launched.

"Glendale," he said, "is in need of playground and recreational facilities." He is offering a three months' organization of leisure time work, if the interested parties will carry it on for a year.

"These meetings are arranged by the club for the benefit of all men regardless of church connections. A cordial invitation is extended to all."

A social half-hour will follow the talk and refreshments will be served.

Actual work is now going forward on the addition to the Acacia school by Contractor J. B. Harris of Los Angeles, who had his apparatus on the job Monday morning. The contract calls for completion of the building by the first of July, but Mr. Harris expects to turn it over to the board before this date. He stated that the roof will be on by the first of next month. Most of the work is being done by Glendale labor and most of the lumber and building material is being purchased from local firms.

CITY BETTERMENTS ARE OUTLINED AT C. OF C. FORUM

Plenty of Suggestions Made at Meeting; Publicity for Glendale Discussed

"See Glendale before you settle." Guy Wilson suggested that such a sign be posted along the motor highways and railroads leading to California as one method of advertising this city, when the subject was discussed at last night's forum meeting of the Chamber of Commerce.

Napoleon LeBlanc recommended that stickers with the slogan, "Glendale—the fastest growing city in America," be provided the people here to place on all mail going east.

T. F. Moore put a plan in the year's program that every member mail papers with publicity favorable to Glendale, in order that their eastern friends would get this city right in black and white.

E. F. Sanders urged a "write home" week in which 20,000 letters would go forth telling of Glendale and its growth. All of which followed the motion by Gil A. Cowan to recommend that the advertising and publicity committee be instructed to publish one illustrated booklet, folders and a news letter.

And Wreck Is Averted

The forum adopted the motion and as Chairman George Karr, "the goat-between," tried to steer the members onto the subject of better boulevards, E. U. Emery derailed the train of thought on the subject of municipal busses, or was it Pacific Electric.

Both Dr. Jessie A. Russell and C. D. Lusby challenged the remarks of Mr. Emery. Secretary James A. Rhoades insisted there was no use in carrying the discussion further.

A motion was made by Dr. Russell that a special open forum meeting be held within ten days after the date Glendale obtains a permit from the public utilities board of Los Angeles to operate a bus line. This was interpreted to mean taht the forum favored the Chamber directors' action in backing the city council in its fight for the permit.

For Better Highways

V. M. Hollister, president of the Chamber, urged the members to get down to business on their program and following W. S. May's suggestion that boulevards leading into the city

As a number of the guests were members of the Elks' lodge the customary 11 o'clock toast was given by John Fanset, past exalted ruler of that organization, and at 11:30 o'clock refreshments were served.

Those present included Mr. and Mrs. Robert Meadows, Mr. and Mrs. Claude Putnam, Mr. and Mrs. Warren Roberts, Mr. and Mrs. Chester Kling, Mr. and Mrs. Ed Halstead, Mr. and Mrs. Ed Thim, Mr. and Mrs. A. Being close to the foothills the property affords a splendid view of the city of Glendale and will no doubt prove to be one of the popular subdivisions for residence sites.

The program also included group singing by members of the third grade, recitation, "North Wind," by John Beylick, and a short talk by L. T. Rowley, attendance officer of the Glendale school.

George Arliss Closes 'Disraeli' Tonight on Screen at Glendale

George Arliss in the film production of "Disraeli" concludes three triumphant days at the Glendale Theatre this evening. Thousands of people have seen the picture and declare it a masterpiece. Instructors at Glendale Union High school were instrumental in having English history and literature students attend.

Mr. Arliss is a great actor. He has surrounded himself with a company of excelleent players, and the whole play has been worked out on a scale that indicates something of its immensity in the closing scenes, where Mr. Disraeli walks before his Queen and bows in homage. The exteriors are exquisite, having been photographed in green bowers and lovely places not often seen in photoplays. The "plot" which the dramatist, Louis N. Parker, has woven for his players, is largely fiction, of course. "Disraeli" is not a historical play. It merely gives us an idea of the times in which the great English statesman lived, and shows us something of the opposition he had to contend with. But it is more than sufficient in story form to engross our attention throughout the showing.

Mr. Arliss hews close to the line in costuming his Disraeli. His "make-up" is strikingly like portraits of Disraeli, with which we are familiar. He plays his Disraeli with marvelous reserve through the earlier scenes. But in the closing scenes he throws restraint to the winds. Here we get the spirited acting that brought Mr. Arliss fame some years ago. There is a strength in these scenes that is rarely defined in terms of motion pictures.

With other film attractions "Disraeli" is really a wonderful show at regular prices for this United Artists attraction.

TWO TRACK BATTLES WILL BE STAGED ON SATURDAY

Cinder Fans Will Take Big Interest in Meets of Four Teams of Southland

By HOWARD M'GILLIS
Sporting Editor The Evening News

Southern California's active intercollegiate track season will be started in earnest tomorrow afternoon when two dual metes will be staged by teams representing four of the leading institutions of higher learning in this section. The two matches, the results of which will be closely watched by thousands of cinder followers throughout the southland, will be the annual Occidental-Pomona brawl at Claremont and the initial home meet of the University of Southern California Trojans with the Bulldogs of Redlands university.

The more important of the pair of feuds, from a point of interest, will undoubtedly be that between Joe Pipal's Tigers and Eugene Nixon's Sagehens, as the friendship of these two squads toward each other is about as close as that of two strange dogs. After losing continuously for almost two decades the Eagle Rock B. V. D. artists are contemplating a terrific "comeback" over their ancient rivals that will even surprise their most rabid boosters. According to the dope, the Tigers should defeat Nixon's crew by at least a 2 to 1 margin.

The fracas at Bovard Field should result in a closer score, although it is the general opinion among track followers that Redlands will have but little chance to nose out their Methodist opponents. Those who are expected to star for the Trojans are Boyle, Evans, Schiller and Emmons, while the luminaries with the Bulldog squad are Yount, Allen, Knight and Kubias.

Plunge Stars to Meet

A considerable amount of interest is being stimulated among swimming fans throughout the state regarding the coming all-star meet which is scheduled to be staged in the Los Angeles Athletic club plunge on Wednesday night, March 8. The headline events of the swimfest, which will be the first of the season, will be the two 500-yard Southern Pacific championship races, one for men and the other for women. Both events will be conducted under "free style" rulings, and, as a result, they have attracted numerous well-known water experts.

Among the favorites who will be seen in action are Ludy Langer, Aileen Allen, Janet Ford, Colin Smith, Marie Curtis and others.

Fights Without Blood!

The recent report of a statement said to have been made by C. W. Campbell, mayor of Huntington, W. Va., which sanctioned the staging of "bloodless" boxing bouts in that city, has met with much amusing and interesting comment among ring fans all over the country. The stipulation allows two boxers to engage in a fisticuff within the city limits, although it must be limited by the clause "minus knockouts, bruised noses and ears and sprained joints." Purses are prohibited from being offered and it is unlawful to make admission charges for those who attend the bouts.

Whether a boxer who has been taught to "go get 'em" can refrain from tapping his opponent on the "beezer" when the opportunity avails itself remains to be seen."

NEED BRIDGE OVER L. A. RIVER NEAR PARK, DECLARED

Proposed Improvement Discussed at San Fernando Road Association Meet

(Continued From Page 1).
nando Road and H. S. Cobb of 1118 South San Fernando Road.

Progress Is Outlined

The progress of the organization since its inception a few months ago was outlined with enthusiasm by Mr. Griffin. He said that in view of what had been accomplished already the future looked very promising.

A. M. Salyer of 1253 South Orange, chairman of the light committee, stated that he had been to Riverside and Alhambra observing their street lights. He recommended a three-cluster standard in preference to a five-cluster standard and said that under no circumstances would he favor a one-lamp standard. He stated that he hoped to make a further report later on the probable cost of the standards.

The city's plan to establish a municipal bus line was endorsed by the association which pledged itself to do all in its power to co-operate with the city government.

The next meeting of the San Fernando Road Improvement association will be held the evening of March 16.

AUTOMOBILE SALE
LEASE EXPIRES

We Move About March 15th to Our Location at 112 South Maryland

Frankly, we believe this sale offers unprecedented opportunity for the people of Glendale. It is not a collection of "junk" and useless cars, but a splendid collection of USED and USEFUL cars in first-class condition. We've spent a lot of time overhauling, rebuilding and renewing them, and feel no hesitancy in advertising them as the GREATEST VALUES in USED CARS ever presented to you.

Pick Yours

The "car of your dreams" is here in this group

Fords
Hupmobiles
Buicks
Stephens
Velies
Nash Four
Nash Roadster
Nash Sedan

Don't Forget That EVERY CAR on the Street Is a USED CAR

Used cars—think of that! Just as soon as a car is driven 'round the block it's used. Of course the sale value depreciates, and if you want to sell it, you can't get as much as you paid for it. The depreciation has been TAKEN OFF of EVERY CAR IN THIS SALE—that's worth considering!

BUY NOW
DON'T WAIT UNTIL SUMMERTIME!
Prices of used cars usually take a jump in summer when the demand is lively.

You Can Trade It In After Six Months

Buy it today, use it six months, or a year, sell it, or trade it in for another car—and you'll lose very little on it.

Easy Terms!

Here's an inducement—and an argument for the salaried man or woman to BUY NOW! You do not have to pay the whole amount unless you wish to. A small cash payment down and the balance in convenient weekly or monthly payments as is most agreeable to you.

SATISFACTION
Drive the car 5 days—if you are not entirely satisfied with it at the end of that time

Bring It Back
—we will gladly allow you every dollar you have paid on it to apply on the purchase of any other renewed car in stock.

Don't Delay!

Naturally, those who "know cars" are going to seize the BEST "BUYS" the first day, so we suggest that you come early. Every car IS "as represented"—and you have our word that whatever car you do pick, whatever price you pay, it's an unmatchable BARGAIN you're getting.

We Teach You to Drive!

Teach you—your wife or daughter—how to handle the car and to care for it. A competent instructor will be provided. Imagine the fun and frolic—the fresh air and enjoyment you'll derive from owning a car of your own. Don't miss all the joy, the convenience and the hundred-and-one advantages of owning a car. A Treat to the Family! A Big Help in Your Business—that's what a USED CAR will prove. And, remember, when you pay the first cash deposit, you can drive the car away, and enjoy it while paying.

Nine Million People In America Are Driving Cars
Don't forget they're all driving used cars, and NOW is your chance to join them.

Friend Richardson Is Indorsed for Governor

The San Jose Mercury-Herald, the leading newspaper of the Santa Clara valley, makes the following editorial comment upon State Treasurer Friend W. Richardson, who is campaigning for governor:

"Friend Richardson, candidate for governor, was in San Jose yesterday. He is pleased; his face reflected it. He has been twice, and now is, state treasurer, he was public printer for a term. For many years he has been the president of the California Press association; he has published two dailies of his own, and at Sacramento he is the one and nearly only personification of efficiency. He is good looking, a blonde mustache embellishes his sunny face, lengthwise he is five feet nine, on the scales the indicator registers over 200. If he is elected, and as governor is as efficient as in the offices of state treasurer and state printer, the judgment of his supporters will be vindicated."

Miss Marie McKay, who was taken to the hospital two weeks ago following an automobile accident, left for her home in Los Angeles yesterday.

American typists are said to surpass those of Great Britain, largely owing to the fact that they learn the "touch" system, whereby the eyes never rest on the keyboard.

EUGENE O. MURMAN HAS DISPLAY OF BUTTERFLIES

Collection by Glendale Man Now Being Exhibited by Entomological Section

Eugene O. Murman of 206 North Central avenue is receiving much praise for his collection of butterflies, which are being exhibited at the First Annual Butterfly show by the entomological section of the Lorquin Natural History club in the Southwest Museum, Los Angeles. This is the first show of this kind held in the United States and will continue until Sunday.

Mr. Murman has been awarded first prize for his exhibit of exotic butterflies.

The collection of Mr. Murman's is noted for its ornithoptera or bird-winged butterflies from the islands of the Malayan Archipelago and the gorgeous blue Morphos from South America, which are the largest and most brilliantly colored butterflies in existence. There are specimens which measure nine inches from tip to tip, with the most wonderful color schemes. In the collection is one specimen from the Solomon Islands, the Ornithoptera Victoria Regiac, with wings of green and gold on a velvety black background. Another is from the island of Batchian, with wings of golden-red and orange on a brown background. The blue colors of the gorgeous Morphos like the Morpho Rhetenor from French Guiana and the Morpho Cypris from Colombia are of dazzling brilliancy.

Refraction of Light

In commenting on these specimens Mr. Murman stated:

"It will be interesting to know that these particular blue colors are not pigments, but are produced by refraction of light through the minute layers of tiny scales and are therefore absolutely sunproof; whereas many other brilliant colors are evanescent, like, for instance, the colors of certain Heliconius from South America, which when bred are scarlet red on a velvety black background but if they are exposed to the daylight these wonderful rich colors fade into a dull brick-red and brown."

Many other beautiful specimens of butterflies, as well as some enormous moths from South America and India, which, although dull in color, show marvelous color schemes and are attractive on account of their size, are included in the various exhibitions, which are attracting large crowds.

The most treacherous animals to deal with in captivity are said to be jaguars and black panthers.

Standards of Citizenship

Among your acquaintances whom do you esteem most?

In your neighborhood, there is a man who drives a big car, bought on the installment plan. He lives in a well appointed house, a rented structure. He is seldom seen at the community meetings in his neighborhood, is never quoted as expressing any decided views on civic affairs. He has his clothes "charged," but is always well groomed, belongs to a fashionable club and is "a man about town."

And in your neighborhood there is another man living in a less pretentious home. He is seen daily to leave in the direction of his shop at a regular hour. His children are always in school respectably clothed, but evidencing no extravagance. This man keeps in minute touch with civic affairs and the needs of his community. He owns his home, pays all bills by check and there is a savings account at the bank for each of the children. The world needs more families like his.

Why the difference?

In each case it was a matter of early education, out of which grew the habits that formed the future life.

Would Give Soldiers Work on Hospitals

WASHINGTON — Hospitals for wounded veterans built entirely by sound veterans of the World War is the proposal made here by Director Forbes of the Veterans' Bureau.

The director made his proposal in connection with the $16,000,000 construction program provided in the Langley bill now in Congress. Director Forbes declared such a move would materially relieve the unemployment situation.

"There are enough veterans of the World War now out of employment to furnish an army of constructors to carry out any building plan contemplated," said Forbes. "Among the veterans out of work are mechanics of every line, draughtsmen, men from every one of the building trades and plenty of live-wire executives. We could build every hospital provided in the Langley bill without going outside the ranks of veterans for the necessary workers. I heartily recommend that all work on the hospitals for veterans be turned over to unemployed veterans. They can do the work, and completed buildings would be permanent monuments to the ingenuity of American soldiers."

ASKS FOR FANCY NUMBERS

LANSING, Mich.—Any combination of fancy numbers representing three of a kind, a straight or something lucky in a crap game would be appreciated, says an applicant writing to the State Department for an automobile license plate. "But please don't give me numbers totaling my wife's age; she never advertises her age," he added.

MONTHLY PAY FOR PASTOR

OBERLIN, O.—A new system for paying a pastor is being given a try-out at Pittsfield, near here. The board of trustees of the Methodist church decided to place their pastor, Rev. Mr. Evans, on a monthly salary and pay him monthly, the same as other persons. He can quit or be fired, it is said, at the expiration of any month.

HUGE SET OF ROAD MAPS PREPARED BY AUTO CLUB

Largest Collection of Kind Yet Completed, So States M. B. Towman

Fifth Avenue, New York City, is now connected directly with Brand boulevard, Glendale, according to M. B. Towman, manager of the local branch of the Southern California Automobile club.

"A bridge of road maps for use by motorists has just been completed," declared Mr. Towman. "This is the largest set of road maps in the world. There are 150 strip maps in the set carrying the tourist either from the west coast to the east or from the east to southern California.

"At the present time the Auto Club's drafting department is completing the routing of the southern highways leading from Florida to California, so that motorists tiring of Florida may come directly west and enjoy the breezes of the Pacific. Other maps, which are being completed, include the guides through the north by way of the Yellowstone and Canadian border. A new map has just been issued showing the great loop through the national parks of the west."

Desert Highway Map

The Southern California Auto club is now about to complete a brand new desert highway map which will include all the roads in Death Valley. Every motorist passing into the desert districts this spring has been advised to secure one of the new maps, which probably will be out next week.

The Lincoln highway has been mapped for its entire distance from coast to coast.

WARNING ON NAVAL CUTS

WASHINGTON, D. C., March 3.—The millennium has not arrived just because the world powers gathered around a table here in Washington and agreed to cut down their navies, Assistant Secretary of the Navy Roosevelt declared in addressing the National Rivers and Harbors congress. He issued a warning against too severe cuts in naval appropriations at the hands of congress.

"We have not reached the millennium through the navy treaty we have just signed," he declared. "Friction will arise and while the armament conference will serve as a guidepost, it is essential that we keep up the navy as it was worked out by the conference. By that treaty we get a navy second to none in the world. We get a navy that is the equal of that of Great Britain and superior to the navies of all other powers."

City Dollar Is Worth More Than Farmer's

COLUMBUS—"Deflation has injured every line of business, but unequal deflation has hit the farmer hardest of all," declared L. J. Taber, Barnesville, State Director of Agriculture. "The farmer's dollar has a buying power of 99 to 101, as compared with the pre-war dollar, while the dollar of the city business man has a buying power of 148 as compared to his pre-war dollar.

"Nothing radical will take place in agriculture, but it will slowly turn to a better condition. There is no patent medicine that will make industry feel better overnight. The road out is the way of economy, thrift, faith and work.

"Export trade has increased in foodstuffs, although the value of goods exported has fallen off. The greater tonnage has been absorbed by the decline in prices, and there is not the surplus stock in this country that is generally supposed. With this surplus absorbed, recovery is in sight for the farmer, but it will not come in a single day."

Director Taber declared that, "given a square deal and fair prices, the American farmer will still be feeding every man, woman and child in America 100 years from now."

Pipes can be seasoned by a novel apparatus used by a London manufacturer. This works by electricity, and smokes a pipe until the wood is seasoned.

Students Warned to Stop Morals Slump

DEFIANCE, O.—A warning against cheap fiction, youthful "love cases," and spooning was given by Dr. Edith Swift, of New York City, addressing the student body of Defiance college. She declared that a girl "all dolled up isn't always exactly what she seems."

"And a fellow can doll himself up to be just as deceptive," said Dr. Swift. "This is all wrong."

"Do not consider that because two young people have gone together for a short time that a bargain is foreclosed. I advise you not to pair off during the first semester of your freshman year."

Declaring that standards of morals had slumped among students since the war, as well as among other classes of young people, Dr. Swift made a plea for a rigid code of sex standards in the colleges and universities of the country.

"Don't forget that we cannot lie in one another's arms and not yield to emotions which should be suppressed," she said.

WOULD SPEND HIS TEETH

DENVER—A man who said he had been robbed of all his money while traveling from Omaha to this city pleaded with officers at police headquarters to take his gold teeth in exchange for enough money to pay for a few meals and a bed.

SECOND DEFICIENCY BILL

WASHINGTON, March 2.—A second deficiency appropriation bill carrying $108,415,287 was laid before the house by the house appropriations committee. The first deficiency bill was passed last December. The amount of the bill reported is $76,503,981 less than was asked for. Big cuts were made by refusing $12,000,000 to the shipping board and by cutting the navy departments appropriation by $60,198,871.

MUST CANCEL CONTRACTS

WASHINGTON, D. C., March 3.—The shipping board has ordered the cancellation of contracts now existing between Japanese steamship companies and the Chicago, Milwaukee and St. Paul and the Great Northern railroads. If the contracts were not cancelled by July 1, the board announced that it would proceed against the railroads.

TO PROSECUTE DESERTERS

WASHINGTON, D. C., March 3.—Draft dodgers and military deserters continue to face prosecution by the government through action by the house. By a vote of 264 to 20, the house concurred in senate action in adopting a joint resolution providing that the military status of draft evaders and deserters be continued so that the government can impose a penalty.

BEES IGNORE WEATHER

CROOKSVILLE, O. — Although weather bureau officials predicted snow a few days ago, local bees were not fooled. At noon on that day passengers at the Pennsylvania Railroad station noticed bees flitting about, just as though it were June.

This pure tuberculin tested raw milk which is produced and bottled on their ranch under strict sanitary conditions will be carried on all twelve of our routes supplying Glendale and vicinity. ROMMEL CO. STARTS CONSTRUCTION OF NEW THEATRE

Glendale Concern Is Building Playhouse In Eagle Rock; In This Vicinity

Work was started this week by the Rommel Construction company of 144 South Brand boulevard on their theatre building in Eagle Rock, which has been leased by the United Theatres, Inc., a Los Angeles concern, which will install an up-to-date photoplay house, with a seating capacity of 600.

In addition to the auditorium there will be a store room on the first floor and two offices above. The improvement represents an investment of $50,000, it is stated by Henry Rommel.

Other work under way for which the Rommel Construction company has the contract includes the F. McG. Kelley block at 235 North Brand boulevard; the Bassell block on the northeast corner of Lexington Drive and Brand boulevard and the Polish library in Los Angeles.

Five jobs were completed in the last ten days, according to Mr. Rommel, and a large amount of work is lined up.

Horses Run Away

Some excitement on San Fernando Road in Burbank Monday.

Yep, a team of horses ran away. R. Houle's double span came rambling down the road with Driver Dittman trying to clear the traffic, but at the intersection of Olive avenue the equines skidded and there they were—all mussed up, but not injured.

They Are Coming Back

Directors of the San Fernando Valley Chamber of Commerce which was wrecked during the war—er—we mean the fair, held a meeting recently and endeavored to get something other than publicity for their fair city. This time it is a weather observer, repair of the road near Burbank and one or two other matters.

Who Got Decision?

Sunday morning exercises were held in the city jail at Burbank.

Copenhagen Peterson, a sailor, who thought he was a floating palace, didn't enjoy his Sabbath breakfast with the result that W. E. Gates, deputy marshal, had to invite him into the "box." The sea-faring man was not responsive and when Gates undertook to push him in, Peterson turned and gave the officer a gentle tap on the proboscis or in its close proximity.

Of course, Gates couldn't have been more surprised if he had been told it would be an advantage for Burbank to be annexed to Los Angeles. And then the fun began. Who won? Why ask that? The story never would have been told if the officer was any less than murdered. And he is still alive.

To Manufacture Ink

A printers' ink manufacturing plant has been assured for San Fernando, says the Press, and it is expected that the plant will give employment to 150 girls and women at least. The Los Angeles Herald alone uses 2000 pounds of ink daily in getting out its circulation of more than 150,000.

Not Hungry, Either

Russell Sears of Burbank claims to be its champion gourmand. He raised his weight five and one-half pounds at one sitting, it is said. He had a wager with Raymond Burton, Howard Martin, Malcolm Higgins and Joe Hollomon, who were more than glad to pay for meal for the chance of watching the ravenous hunger exhibited after thirty-six hours of starvation.

Upon entering the contest Sears weighed 161½ pounds. Here is the menu and weight of each article eaten:

One-half lb. omelette, ½ lb. potatoes, 5 oz. peas, 4 oz. steak, ½ lb. ham and eggs, 4 oz. string beans, 6 oz. lettuce, 1 lb. pie, 1 oz. olive oil, ½ lb. tomatoes, ½ lb. bananas.

Auto Camp Tourists Show Large Growth

KANSAS CITY, Mo.—A marked increase was shown in the number of persons accommodated at the motor tourist camp here during 1921 as compared with the same period in 1920, according to the annual report rendered the park department.

There were 2,976 motor cars, containing 10,958 persons, cared for during 1921. During the same period in 1920 there were 1,508 motor cars and 5,359 persons accommodated at the camp, according to the report.

The camp was open from April 8 to December 3 and cost the city $2,741.70.

Engineers Buy Coal Mine; to Operate It

HUNTINGTON, W. Va.—An enterprise unique in the coal mining industry of West Virginia and Kentucky is revealed in the plans of the Coal River Colleries company, a $2,000,000 corporation with headquarters in this city. The company is virtually owned by the locomotive engineers throughout the country belonging to the National Brotherhood of Locomotive Engineers. Warren S. Stone, chief of the brotherhood, is chairman of the company's board of directors and William B. Prenter, also an executive of the brotherhood, is vice-president.

The engineers' company has acquired control of 5,334 acres of coal land in Boone County and has recently taken over the Eureka Coal and Mining company's operations at Prestonsburg, Ky. The company has planned to establish its own retail yards in Cleveland, O., and in several advantageous spots throughout the Middle West.

Teeth Knocked Out, But Grow Back Again

PAWNEE, Neb.—Teeth knocked from the mouth of Raymonds, star of the Pawnee high school basketball team, are growing back.

After a skirmish in a recent game Richards spat three teeth out on the floor of the gymnasium. A dentist rendered first aid, wired the teeth back in place and ordered the star out of the game for the rest of the season.

By the end of two weeks the teeth apparently were as solid as ever, and Richards came back as the best point-maker in the high school league.

Build While Building Materials Are Assured

Six months ago southern lumber mills were cutting more lumber than they were shipping. Today they have orders on hand for more lumber than they are cutting. Six months from now the situation may be even more acute. Our stocks are large and complete today. We hope to keep them so. But with more building forecast this year than ever, lumber is apt to be higher. Bring us your plans and your problems now for information, price estimates and other helpful service.

CHRISTIAN SCIENCE LECTURE TOPIC BY C. I. OHRENSTEIN

Member of Board of Lectureship Gives Talk Last Night At Glendale Church

Taking as his subject "Christian Science, the Knowledge of Salvation," Charles I. Ohrenstein, C. S. B., member of the lectureship of the mother church, the First Church of Christ, Scientist, in Boston, Mass., lectured Thursday night at the Glendale Christian Science church. A resume of his lecture follows:

With Christian Science to guide us, it becomes clear that the wrong sense of life which is typified by Adam,—a sense of life breathed into matter, a thing that is inspired only to be expired,—must cease to be entertained for our sense of life, in order that the right, the spiritual sense may obtain in us. God, that is the one infinite Soul, constantly restores this spiritual sense of life, and for this reason it is immortal. Not only does Christian Science make this clear to us, but it makes it practical,—capable of being practiced and demonstrated. This practice is both healing and reformatory.

And what is this right sense or idea? It is the idea that man is not a detached, material bit of existence, an image of dust or clay with a soul or sense of life equally detached, a mere material inbreathing constituting man's corporeal consciousness. The right sense or idea which Christian Science reveals to us is that man is the constantly inspired image and likeness or expression of God, and thus the expression of the one true Soul, Spirit, Mind, "created in all holiness," which only means wholeness, completeness, that in which nothing is lacking—health. Is not this the true salvation, the salvation through Christ, the God-anointed, God-approved man who must be and is the reflection or idea of God, and who, indeed, was before Abraham, as Jesus said.

God's Healing Word

In the Old Testament, we are told, "He"—meaning God—"sent his word and healed them." In speaking of the word of God, Jesus said, "Thy word is truth," and of the truth, he said, "the truth shall make you free." No limitation of any kind is placed upon the power of God's word or truth to heal or make free, either by the Old Testament writer or by Jesus, and both the Old and New Testament records show that God's word or truth, when rightly applied, accomplished its divine purpose,—healed all manner of diseases. Not only does Christian Science prove that it is the Word or Truth of God of which the foregoing was predicated, but it does this in a way that leaves no room for doubt upon this question by frequently accomplishing the healing and emancipation through the reading of the Christian Science text book, Science and Health with Key to the Scriptures, by Mary Baker Eddy, and without any personal instrumentality or intermediary.

Founded on the Bible

Jesus teachings were always those of the Bible. He made plain those teachings, and demonstrated them. His words, "aflame with divine Love" (Science and Health, p. 367), lifted, enlightened, and kindled the thought of his hearers so that their hearts burned within them to follow his example; and their words and works, in turn, perpetuated this right desire. But the love of ease, "the lust of the eyes and the pride of life," the desire for mere loaves, not for the obedience which worked the miracle of multiplying them, gave to the world mere words instead of works, the mere embers and ashes of the heavenly fire kindled by the Master, embers and ashes which remained such until again one poor enough in spirit fanned them into flame with her devotion, was warmed back to life by them, a life abundant with all good for herself and all mankind.

Just as Jesus had to make plain the teachings of the Scriptures to the Jews, so the teachings of those Scriptures and of Jesus had to be made plain to us. Mrs. Eddy did this. Just as he brought no new doctrine, so did she bring no new doctrine. Just as the Scriptures and Jesus taught that the abundance of all that is good is the result of obedience to the commandments of the one Spirit, Soul, God,—the result of that humility, that meekness, which is "poor in spirit," not high-minded, so has Mrs. Eddy taught that the abundance of good is for all who are willing to leave all mistaken beliefs and follow Christ, God's truth, which blesses and benefits all.

England Makes Move To Have Own Icemen

LONDON—London is going in for ice.

Fearing an American invasion of ice-cream and soda-water manufacturers, the members of the Refreshment Traders' federation have organized a movement to start ice plants, wholesale ice-cream factories and soda fountain works throughout the United Kingdom.

The British interest in ice and iced things was aroused suddenly when announcement was made that an American firm was planning to start a chain of soda fountain and ice-cream parlors throughout England.

Up to the present ice has been a rare article in England. There is no ice man. If you feel the need of ice you run around the corner to the fishmonger and he may oblige you by selling you a small piece.

Navy Nearly Swamped By Waves of Economy

By GEORGE R. HOLMES
Written for International News Service

WASHINGTON, D. C., March 3.—The waves of economy now rolling high in congress have more nearly forced the American navy to haul down its flag than storm waves or a real enemy ever did.

Something closely akin to panic existed in high naval quarters today over the cutting and slashing to which naval appropriations are being subjected at the hands of economy-bent congressmen.

Orders have actually been prepared to stop fleet operations, according to naval officials, but they will not be issued until there is some clarification of the existing situation.

So perturbed is the navy that President Harding has again been appealed to and asked to lay a restraining hand on the congressional surgeons.

Continuation of this cut and slash policy, Secretary Denby informed the president threatens to put the ships of the navy into their nearest ports, there to remain until congress gets over its "economy spree" and appropriates funds to permit operation.

President Harding, acting as mediator, relayed the navy's views to Representative Martin B. Madden, chairman of the house appropriations committee, but there was no sign of capitulating today on the part of the appropriators.

Naval authorities declared today they could not run a navy without money with which to buy oil and coal; congressional leaders declared money enough had been provided. And there the situation rested, with the navy's eyes on the White House and congressional eyes on the coming fall elections.

EXCOMMUNICATED BY POPE

ROME, March 3.—The Duke of Tortulo, whose wife's name before marriage was Miss Elsie Moore, daughter of Charles A. Moore of New York, has been excommunicated by Pope Pius XI for engaging in a duel with Count Filuppo Lovatelli, noted sculptor. The duel grew out of a dispute which arose over a statue of the duke's wife made by Count Lovatelli. The men fought with swords. Lovatelli was reported to have been wounded in his right arm and was forced to discontinue the duel.

The effective range of a sneeze, from the germ point of view, is three feet.

Plans for Cash Bonus Not Being Abandoned

By A. O. HAYWARD
Written for International News Service

WASHINGTON, D. C., March 3.—"Say for me that plans for a cash bonus for ex-service men have not been abandoned by the house ways and means committee," Representative Fordney, Republican of Michigan, committee chairman, declared today.

"The committee has not given up hope of making provision for cash payments, and statements to the contrary are not correct," Fordney continued. "It may be necessary to abandon all plans for a cash payment, but the committee has not reached such a decision yet."

Experts from the treasury were before the committee today to make a final report on the condition of the treasury, its certain and estimated revenues during the present and next year and probable expenditures. With this final information before it, the committee revenue hunters will be forced to a decision on bonus legislation.

Chairman Fordney admitted that among plans being considered was one to merge the cash payment plan with the insurance feature of the bonus bill. This plan would give the paid up insurance certificate an immediate cash value of fifty per cent of the face value that the beneficiary could raise by securing a loan on his insurance policy at a bank. The insurance certificate will be good for an 85 per cent loan on its face value from the treasury after three years from issue.

It is understood this plan has the backing in the committee of the house members who are opposing any tax or charge against treasury revenues to meet bonus payments. These members are insisting there will be no direct cash bonus payments authorized by legislation to be agreed upon finally by the committee.

CAN'T QUIT BY APRIL 15

WASHINGTON, D. C., March 3.—"It is manifestly impossible for congress to adjourn by April 15," said house Republican leader Mondell, commenting on reports of adjournment about that time.

"Congress cannot pass the appropriation bills and the tariff bills and the senate cannot dispose of these measures together with the treaties by April 15. That would be an impossibility. I do not think it possible for congress to complete its work before June 1, and I do not think congress can adjourn on that date."

How Much Are You Taxed?

Our old friend Dooley said: "If anybody offers to give you something for nothing do not hesitate. Call a Policeman at once." That is real "horse sense." Did you ever stop to consider what it costs to operate a Delivery Truck? Here are a few of the things for which you have to pay: Gasoline, Lubricating Oil, New Tires, Repairs and Overhauling, Loss in value when sold or exchanged and last but not least, Salary of a driver and usually a helper. If you have ever owned a Truck you know. Do you know that telephone operators, order clerks, shipping clerks and porters are paid by the week or month.
Who do you think pays these salaries and other expenses. If you have given it any thought you will know that the customers do the paying. Just how much of it are you paying? And yet you are told it is "FREE DELIVERY." Piggly Wiggly has eliminated the above expenses and that is one of the reasons that "year in and year out" you can obtain the best values in Groceries for your money at Piggly Wiggly. Bank President Says Domino Club Unknown

NEW YORK, March 3. — Charles H. Sabin, president of the Guaranty Trust company, appeared before the grand jury which is hearing the charges of grand larceny against Alfred E. Lindsay, so-called "ladies' broker" and practically denied any connection with the broker.

Sabin, whose name had been used by Lindsay as one of his sources of "inside information" on the stock market declared he had not the slightest acquaintance with Lindsay and asserted he had never heard of the secret "domino club" which Lindsay represented to his clients as being a factor in manipulating the market.

Sabin's testimony was brief, the banker being on the stand only two or three minutes. He was followed by W. Averill Harriman, whose name has also been used by Lindsay. Harriman repudiated the accused broker's claim to acquaintanceship with him and said he had never heard of the "domino club" until the present investigation got under way.

Three additional indictments were returned against Lindsay by the grand jury, making four in all. Grand larceny in the first degree is charged in each bill. One of the indictments is based on the complaint of Mrs. Lillian N. Duke, divorced wife of the tobacco king, who claims to have lost $375,000 at the hands of Lindsay.

The second grew out of the story of Mrs. Dorothy Atwood, a $22,000 loser and a third covered another loss of $30,000 by Mrs. W. N. Arnold.

"Sugar is the curse of a nation," says a famous dental surgeon. "At tea we should eat sugary cakes first and bread and butter last."

KEEP URIC ACID OUT OF JOINTS

Tells Rheumatism Sufferers to Eat Less Meat and Take Salts

Rheumatism is easier to avoid than to cure, states a well-known authority. We are advised to dress warmly; keep the feet dry; avoid exposure; eat less meat, but drink plenty of good water.

Rheumatism is a direct result of eating too much meat and other rich foods that produce uric acid which is absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly cold weather the skin pores are closed thus forcing the kidneys to do double work; they become weak and sluggish and fail to eliminate the uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles, causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism.—Advertisement.

New Movie Camera Run by Clockwork

LONDON—A new camera for taking kinematograph pictures has been produced which does away with the handle at present used for winding the film, a special type of clockwork motor being used instead.

A tripod stand need not be used, and the lightness and inconspicuousness of the camera will enable kinematograph operators to take pictures of a more intimate type than they can at present obtain.

The camera can be loaded in daylight, a sliding shutter allows of direct focusing, and the camera can in a moment be converted into a printing machine for making the postive films.

Lobster Crop Is Big; Price Fails to Drop

SAN DIEGO, Cal.—By the right of the law of "supply and demand" lobsters should be cheap seafood, emphatically asserts an official statement from the California Game and Fish Commission.

War on lobster profiteers has been proclaimed, declares the announcement, pointing out that there is no reason why lobsters should be retailed by restaurants at from sixty cents to $2 per portion. The present season along the Pacific coast, it is declared, is the largest in years.

Despite the great influx of shell fish, the commission asserts, the price to the consumer has not dropped a single penny.

be improved, S. W. Stern of Verdugo Woodlands, suggested that their improvement be recommended to the committee and that the Chamber will back the city council in its program of street paving. Brand boulevard, West Broadway and Glendale avenue were streets specified as needing immediate attention.

Attorney G. H. King of the railroad committee told how the city council was conferring with representative groups on the subject and he gave satisfying assurance that action could be expected in the matter of better streets and boulevards.

J. K. Gilkerson wanted a trail up Mount Verdugo made safe for hikers, matters of transportation and railroads were referred en bloc to Mr. King's committee; a comfort station was suggested.

Centrally Located Depot

E. G. Warren followed up Director C. D. Lusby's suggestion that a Southern Pacific station be established at the railroads intersection with Brand boulevard, with the statement that a more centrally located depot to accommodate Pasadena, Glendale and Hollywood patrons should be built in the early future to eliminate passengers traveling through the congested district of Los Angeles.

Others speaking on various subjects included L. T. Rowley, C. D. Gullick, C. E. Stanley and several more whose names could not be learned.

In introducing himself, Mr. Karr, the chairman, told of the community work he found reported in his "home town Parsons paper." Parsons, Kans., being about 18,000 population. He compared its Rotary club, Community Service, Women's Forum, Elks' drive for the Salvation Army, Community chorus, poster campaign and other activities as similar to those here.

"What you get out of a Chamber of Commerce, or any other civic move, will be what you put into it," he said.

FIRE CHIEF IS WOUNDED

QUEBEC, Que., March 3.—A million rounds of small arms ammunition exploded during a fire in the Dominion arsenal cartridge factory. Fire Chief Jacobs was wounded in the face.

F. A. Clarke Defends Motion Picture Folk

Under the caption, "Reports About Life at Hollywood 'Outrageous,' Claims California Man," F. A. Clarke of 351 Oak street, and proprietor of the electrical company bearing his name, is accorded the following interview in a recent issue of the Post-Standard at Syracuse, New York:

"Branding as 'outrageous' reports printed in newspapers east of the Mississippi river concerning conditions at Hollywood, and the character of the moving picture artists in general, F. A. Clarke of Glendale, Calif., a suburb of Los Angeles and less than four miles from Hollywood, expressed his indignation while in Syracuse yesterday of the abuse which is being heaped upon a class of folks that are 98 per cent all right.

"Mr. Clarke said that Mary Miles Minter is known to be a 'sweet, refined girl with a host of friends' and as to Fairbanks, Hart and Reid, their home life is ideal.

"The Taylor murder, Mr. Clarke said, took place in Los Angeles and not at Hollywood and California, which has been successful in handling its crime wave, will solve the Taylor case. Mr. Clarke said that the movie industry has millions of dollars invested in California because conditions are perfect for making pictures and the majority of the men and women who work for the film companies live in Los Angeles. Hollywood, he said, has hundreds of homes built, owned and occupied by retired residents of California and many more by men who go into Los Angeles each day for business.

"Mr. Clarke operates a chain of electrical stores and he was here yesterday to confer with John Derschug of the Syracuse Washer corporation, whose products he handles in large quantities. Business is good in California, Mr. Clarke concluded."

Musical Comedy Revue Is Featured Upon Vaudeville Bill at T. D. & L. Bill Today

Bevy of Girlies at T. D. & L. Theatre Today and Tomorrow in the "Musical Comedy Revue"

One of the liveliest acts ever seen in vaudeville is to be seen at the T. D. & L. theatre today and Saturday as the headliner on the Meiklejohn & Dunn vaudeville road show. Tommy La Rose is well known in musical comedy as one of the cleverest and most original producers in the business and the musical revue which he is presenting is one that is filled with bright and catchy songs and dances that should appeal to every one who sees it. In this girlesque harlequinade which this talented company offers will be found a chorus that is unusually well trained and the comedians of the company are the funniest that can be imagined.

Another act that should be well received is that of Clement's Troupe of Royal Hawaiians. Wherever vaudeville has been shown, this troupe is known for "A Night in Paradise Isle" has played the best of the standard circuits throughout the country. The musicians of this troupe are all natives of Hawaii and they play their instruments as only Hawaiians can play them. Their selections range from the latest jazz pieces to the dreamy music of their native land.

The Appy Trio have a most distinctive offering, which consists of three women, one of them possessed of a remarkable voice and the other two performers on the violin and cello.

The feature photoplay, which will be shown in addition to the five acts of vaudeville, is "Get Rich Quick Wallingford," in which an all-star cast is featured. This picture which is one of the famous stories of George Randolph Chester is said to be even better on the screen than in novel form.

By means of an apparatus which can be built into factory chimneys, an American inventor claims he can cleanse the smoke passing through.
